- Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- This is Class B product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
- To reduce the risk of fire and electric shock, do not expose this product to rain moisture.

FCC NOTICE

This device has been tested and found to comply with the limits for a Class B device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in home environment as well as in a commercial, industrial or business environment. This equipment can generate, use and radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit's different form that to which the receiver is connected.

- Changes or modification not expressly approved by the party for compliance could void the user's authority to operate the equipment.
- Connecting of peripherals requires the use of grounded shielded signal cables.

Important Safety Precautions

Always be careful when using your television. To reduce the risk of fire, electrical shocks, and other injuries, keep these safety precautions in mind when installing, using, and maintaining your Television.

- Read these instructions and keep them in a safe place.
- Heed all warnings,
- Follow all instructions
- Do not use this apparatus near water,
- Do not block any of the ventilation openings,
- Install it in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the Television.
- Only use the attachments/accessories specified by the manufacturer. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the Television. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug this Television during lightning storms or when unused for long periods of time
- Refer all servicing to qualified service personnel. Servicing is required when the Television has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, the Television has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Clean only with a lint free cloth.

1. Softly push the back cover to open the battery compartment.

2. Insert two batteries(1.5V size AAA), please make sure the polarity matches the marks inside the compartment.

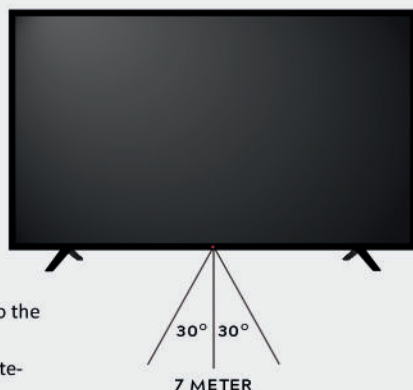

3. Softly press the back cover to close it.

OPERATION OF REMOTE CONTROL

Point the remote control unit from on more than about 7m from the remote control sensor and within about 60 degrees of the front of the unit.

NOTE :

- The operating distance may vary depending to the brightness around.
- Do not point bright lights directly at the remote-control sensor.
- Do not place objects between the remote-control unit and the remote-control sensor.
- Do not use this remote-control unit while simultaneously operating the remote-control unit of any other equipment.

4. System Connections

Do not connect the power cord until all other connections have been made. Ensure that you observe the color cord when connecting audio and video cables.

4.1 CONNECTING TO POWER SUPPLY

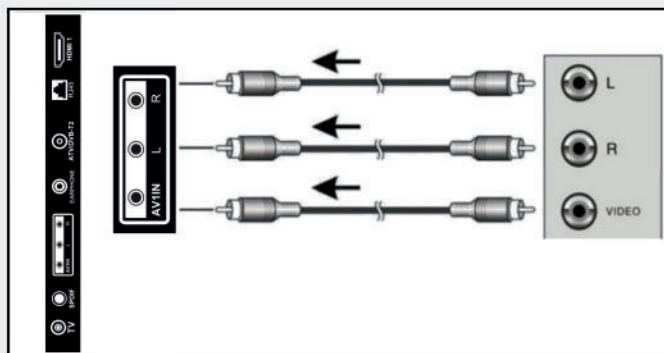

- Connect the power cord correctly to the power outlet.
- Press the POWER switch of your TV to switch ON. The power indicator on the front panel lights up in Green.

4.2 CONNECTION TO EXTERNAL AV SIGNAL SOURCE

Use the audio and video cable to connect the input jacks on the rear panel of the unit to the external AV signal source.

Connect the unit and the external AV signal source to the respective jacks with the S-Video cable.

Ensure that you observe the color cord when connecting audio and video cables.

After connection, turn on the power of the unit and the external AV signal source. Press **SOURCE** then direction buttons to select AV mode, and then press the **ENTER** button to confirm.

NOTE :

- The L/R Audio input jacks can be used in the both composite modes.

4.3 CONNECTING TO EXTERNAL NETWORK SOURCE (RJ45)

The RJ45 input jack(Ethernet jack) on the rear panel of the device allows for wired network connectivity. Use a standard Cat5e/Cat6 cable to link the RJ45 port on the unit to your router, modem, or switch.

Avoid bending the cable sharply to prevent signal degradation.

RJ45 PLUG FOR CONNECTING TO EXTERNAL MODEM OR NETWORK ACCESS EQUIPMENT.

HDMI provides both audio and video signals and typically provides superior image quality to component or composite.

4.5 CONNECTING TO DIGITAL AUDIO (SPDIF)

The SPDIF port on the rear panel of the unit enables high-quality digital audio transmission. Use an optical or coaxial cable to link the SPDIF OUT port on your audio source (e.g., Blu-ray player, game console) to the SPDIF IN port on the unit.

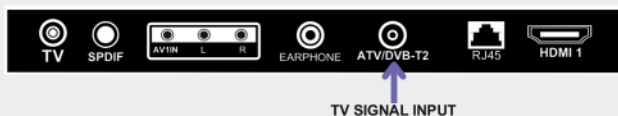

DIGITAL AUDIO OUTPUT

After connection, Access the unit's audio menu and select "SPDIF" or "Digital Audio In" as the input source. Choose the appropriate format (e.g., PCM, Dolby Digital, DTS) based on your source device's capabilities.

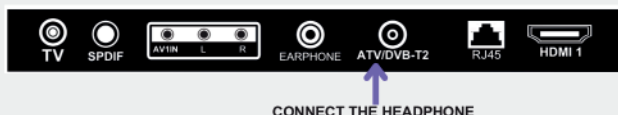

4.6 CONNECTING TO TV SIGNAL INPUT

Connect the TV signal cable (the antenna cable, for example) to the antenna input jack on the back of the unit so that you can receive television programmes.

4.6 CONNECTING TO DIGITAL AUDIO (EARPHONE)

Insert the plug of your earphones firmly into the jack until it clicks into place. Ensure the plug is fully inserted for optimal audio quality.

After connection, adjust volume using either: The unit's volume button or Your earphone's inline controls (if available)

4.6 CONNECTING TO EXTERNAL HARD DRIVE (USB)

Insert your USB flash drive or external hard drive directly into the port. For USB cables, ensure the standard Type-A connector is properly aligned before insertin.

THESE PORTS CAN ONLY BE USED FOR
SMART MODULE FUNCTIONALITIES.

The TV will automatically detect compatible media files. Navigate to the "Media" or "USB" input source using your remote control.
